AYUSH YADAV

Greater Noida, India | ayushydv071@gmail.com | 8218864907 | LinkedIn | GitHub

OBJECTIVE

Third-year B.Tech Data Science student with a strong problem-solving base in C++ and hands-on experience building projects with Node.js, MongoDB, Python and n8n workflow automation. I enjoy turning ideas into working web apps and ML models. Looking for a software development internship where I can contribute clean, reliable code, learn from experienced engineers and grow quickly.

EDUCATION

B.Tech in Data Science – Noida Institute of Engineering and Technology (NIET), Greater Noida *2024 – 2028*
CGPA: 8.8 / 10 (till date)

Senior Secondary (Class XII) – MSPS *78%*

Secondary (Class X) – MSPS *96.7%*

TECHNICAL SKILLS

Languages: C++, Python, JavaScript
Web Development: Node.js, Express.js, MongoDB, React (MERN – working knowledge, still building depth)
Automation & Tools: n8n, Cloudinary, Git, GitHub
Machine Learning: Python, NLP basics (TF-IDF), model training and evaluation
Core Strength: Data Structures & Algorithms (C++)

PROJECTS

ChopAI – AI Background Remover *Tech: n8n, Cloudinary, REST API*

- Built an image background-removal tool using n8n as the workflow engine, without writing a custom backend.
- Used Cloudinary for image upload, transformation and storage, and automated the full flow: upload an image, remove the background, return the result through API calls.

Fake News Predictor *Tech: Python, Flask, NLP, TF-IDF*

- Built a machine learning model that classifies news articles as real or fake, as an academic project at NIET.
- Covered data preprocessing, TF-IDF feature extraction, training and comparing multiple classifiers, and served the model through a Flask web app.

Smart Garbage Management System (In Progress) *Tech: Node.js, Express.js, MongoDB Atlas, JWT, Razorpay, Cloudinary*

- Building a web app where citizens report garbage issues with photos, request paid special pickups, and admins track complaints on a dashboard.
- Implementing role-based login (citizen, driver, admin) with bcrypt and JWT, Razorpay payments, and Cloudinary image uploads; deploying on Render.

CERTIFICATIONS

- **Cisco Certified:** CCNA
- **Cisco Certified:** Cybersecurity
- **Infosys Springboard:** 6+ MOOC certifications
